One hundred years ago, the first settlers staked their homesteads and claimed a town they named "Prague" as their place to grow. These courageous pioneers faced countless battles against all odds as they struggled to realize their dreams and goals in their new town. Nature itself, such as floods, drought, blizzards, hail and high winds, has played its part well in establishing a role in Prague's history. Personal tragedy, such as fires and deadly epidemics, has also tried to intimidate the early settlers into submission. But through this all, the pioneers of Prague had hope and determination. They fought the hardships and they conquered. And, as a reward for their brave actions, the little town of Prague multiplied. An elevator, post office and bank were established. Schools and churches were built. Businesses joined others and grew. A volunteer fire department was formed. Telephones, municipal water works and electricity were introduced into Prague's expanding cultural center. Paved streets carried the tires of the automobile, replacing the horse and buggy era. Through the good years and the bad, through the many changes that marked the coming of the computer age, the people of Prague are continuing to stress the importance of the community, through its elected leaders and volunteers who help with its spiritual growth.

As we look back over the one hundred year existence of Prague, we must realize just how drastic the change has been from that first tiny settlement to our village of today. We must also realize that without the courage and determination demonstrated by the early pioneers of Prague, there would not be a Centennial Celebration. It is with this last thought and hope, that this generation of the 1980's, along with the next, be full of the same dreams and goals of the early pioneers and be able to find the same strength and courage to realize them. Reflect on the past ... for it is a cornerstone to the future.

And Today

Downtown Prague in 1987

The Prague Centennial Celebration, Celebrating a century of Czech Heritage, began on July 31, 1987 with an Alumni Banquet for everyone who had ever graduated from Prague Public School. Their spouses were also invited at a \$10.00 charge for everyone attending. With tours of the school and a museum, the banquet was a success. The night ended with a dance for the alumni.

On August 1, many afternoon activities were planned, including a "World's Largest Kolache Bake", a "3-Wheeler Pull", and an Accordion Jamboree. For the younger generation, there was a "Kiddie Parade" and a "Children's Olympics". For the Polka lovers, the Saunders County Czech Singers, and a concert by Tex Ritter, Jr. was planned.

On Sunday, August second, a Polks Mass, a parade, and Czech dinner were held in the afternoon. Helicopter rides and continuous street concerts were also planned. A Beard and Dress judging also occurred with the night ending in a Polka Street Dance.

Throughout the Centennial a museum was set up in the National Hall, an Antique tractor show was set up on Main Street, and a history of all the business buildings was present.

The citizen involvement was tremendous. All of the business owners and other helpful citizens sold raffle tickets and helped spread the word of Prague's Centennial.

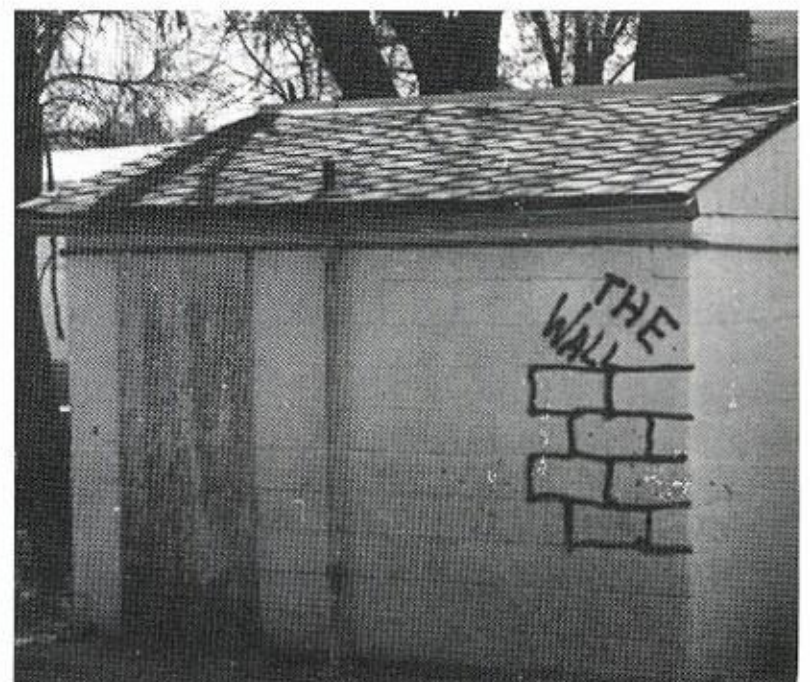

"I think the Centennial will be a lot of fun, but I wish they had something for the teenagers. It's all for adults or little kids. They definitely needed a carnival or a band teenagers would enjoy," Senior John Kaspar told us. Carley Urban, a second grader agreed with John about the carnival, but was real excited about going to the Czech Dinner and taking a helicopter ride. Most of the first and second grade boys and girls seem very excited for the fun and laughter to come.

Friendly Support from the Prague Community

What is it like to live in a small town of only 290 people? No, there is no fast-food restaurants or Cinema's but there are people who support any school function and are willing to help anyone out. For a writing assignment in English the Sophomores responded to the question asked "What do you like about living in a small community?"

Homecoming Brings Alive P.H.S. Spirit

CAREER DAY

COUPLE DAY

COUPLE DAY

TOURIST/HAWIIAN DAY

Once again spirit week was a success for the 1986 homecoming. The kids seemed to enjoy it.

Dressing up differently gave them a chance to show others their unique personalities.

On Thursday night we had our annual bonfire. Everyone was welcome to come to cheer and raise the spirit for the game.

On Friday we had our pep rally where the band leads the whole school downtown to cheer, and have skits. There they pass out prizes to those who did the best job of dressing up on the given day.

BLUE/WHITE DAY

TWIST-SHOUT

Homecoming blasted off to a good start when the football guys beat Elgin before half-time. On Oct. 17, 1986 the homecoming royalty was announced at half-time. Shown on the picture above; first row are: Rob Koranda, freshman honor guard; Andy Havlovic, crown carrier; Duane Havlovic, king; Connie Stava, queen and Amy Behne, crown carrier. Second row: Chris Johnson, sophomore honor guard; Larry Koranda, junior honor guard; Scott Polacek, senior honor guard; Cory Piercy, senior attendant; Connie Kratky, senior attendant; Darlene Snitily, senior honor guard; Kari Johnson, junior honor guard; Carmon Egr, sophomore honor guard; and Sherri Paseka, freshman honor guard.

A.D.J. played at the homecoming dance. It started right after the game and lasted till 12:30. Hotdogs, potato chips, cake and punch were served at the dance. While "Twisting and Shouting" everyone had a good time.

*Junior - Senior Banquet and Prom
on Friday, the first of May*

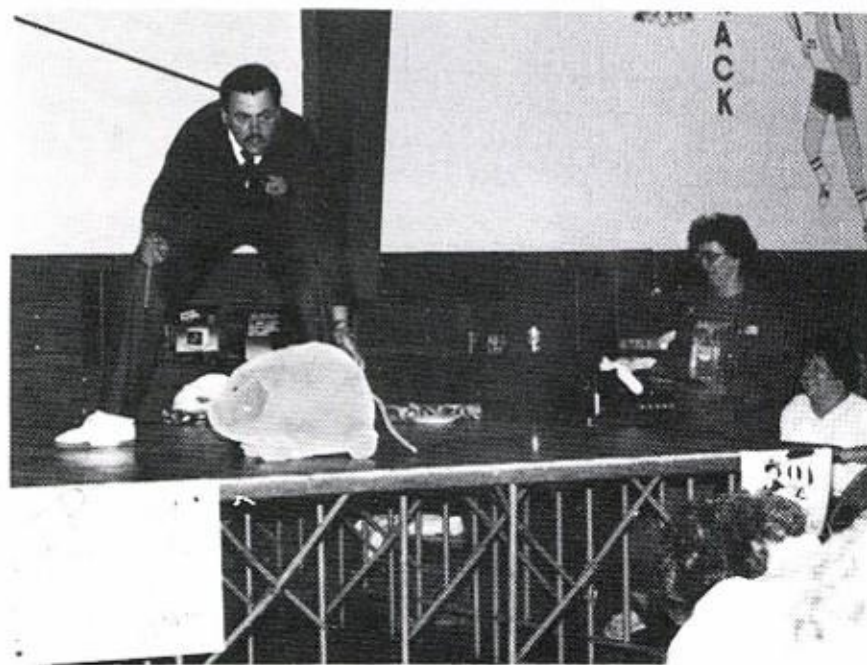

The 1986-87 Junior-Senior Banquet and Prom were held on the first of May at the Prague High School Gym. Pictures were taken by Bartek Photography. The meal consisted of roast beef catered by Tom Slizinski, mashed potatoes and gravy, corn, rolls, salad, fruit cocktail and coffee, punch or tea. The meal was prepared by the Junior class mothers, at right: Twila Wade, Janet Piercy, Beverly Paseka, Margaret Humilicek. Back row: Darlene Kavan, Laura Vanek, Joann Johnson, RoseAnn Koranda, and Jeanne Vanek. Musical entertainment was provided by Stanton Sound. The night was enjoyed by all.

Above, the Juniors party on a Cadillac. Below, the Seniors pose together for a class picture. At left, everyone enjoys a slow dance.

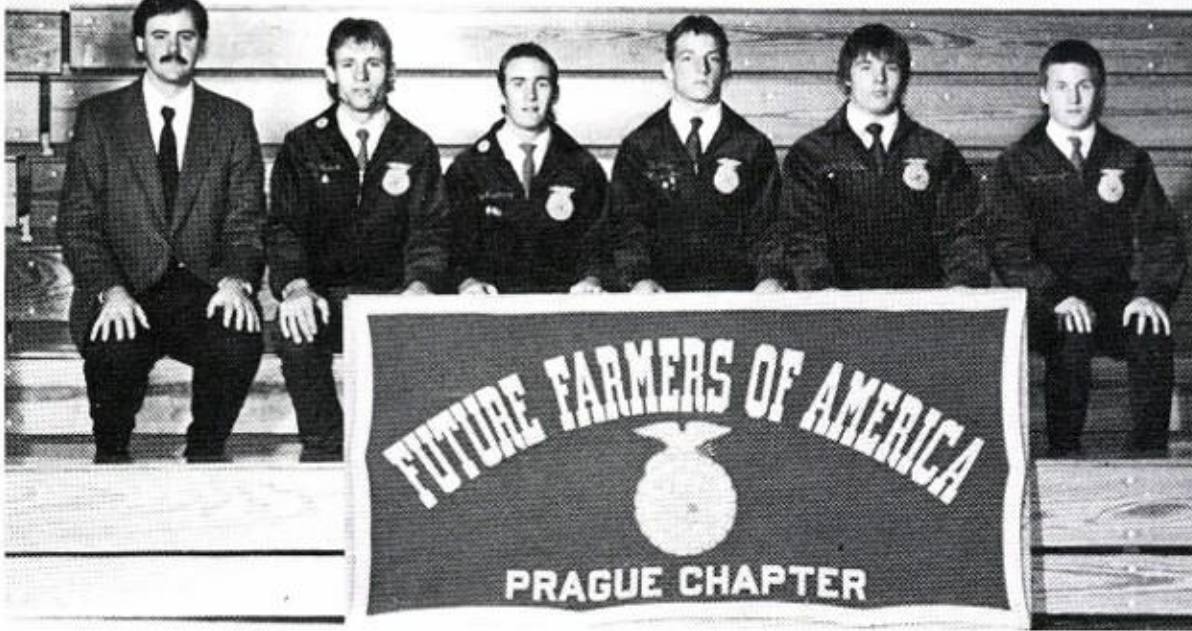

Prom was rock'n and roll'n with the DJ, Stanton Sound. At left are the waiters and waitresses who served the meal for prom. They were Gary Humlicek, Torrey Dael, Chris Johnson, Margaret Stanek, Carmon Egr, and Shelly Odvody. The Post Prom had constant excitement all through the night. They had impersonations of the kids by the teachers. Mr. Collins acted like Jim Kubik at a hog show. Dale Focher and Larry Koranda did a lip sync to the song, "Itsy-Bitsy Teeny-Weeny Yellow Polka-Dot Bikini." There were games going on all night long, including Beat The Dealer. The Limousine ride at the action was bought by Deanne Wade, Marlene Sousek, Melissa Smith, Connie Kratky, Kim Smith and Traci Kavan. A high turnout provided a fun night for all.

The FFA HARD AT WORK

The Prague FFA chapter officers were Mr. Collins as the Advisor, Jim Kubik - Vice President, Cory Piercy - President, Larry Koranda - Secretary, Roger Kubik - Treasurer, and Gary Piercy - Reporter. not pictured was Mike Brennan, who served as Sentinel for part of the school year.

Middle row: Curtis Prohaska, John Kasper, Marlene Sousek, Torrey Daue, Gary Humlicek, Gerald Humlicek. Last row: Mark Ostry, Sasa Watts, Tim Hennessey, Troy Kavan, and Robbi Koranda.

This year the Future Farmers of America did many different things. One big job was picking up corn off the ground for Richard Kubik after a hail storm had hit. There were twenty-four VO-AG and FFA members picking up corn. There were about nine hundred bushels picked.

Another event was a trip to Kansas City, MO. for the National FFA Convention. There were six people who went - Mr. Collins, Miss Haldeman, Gary Piercy, Cory Piercy,

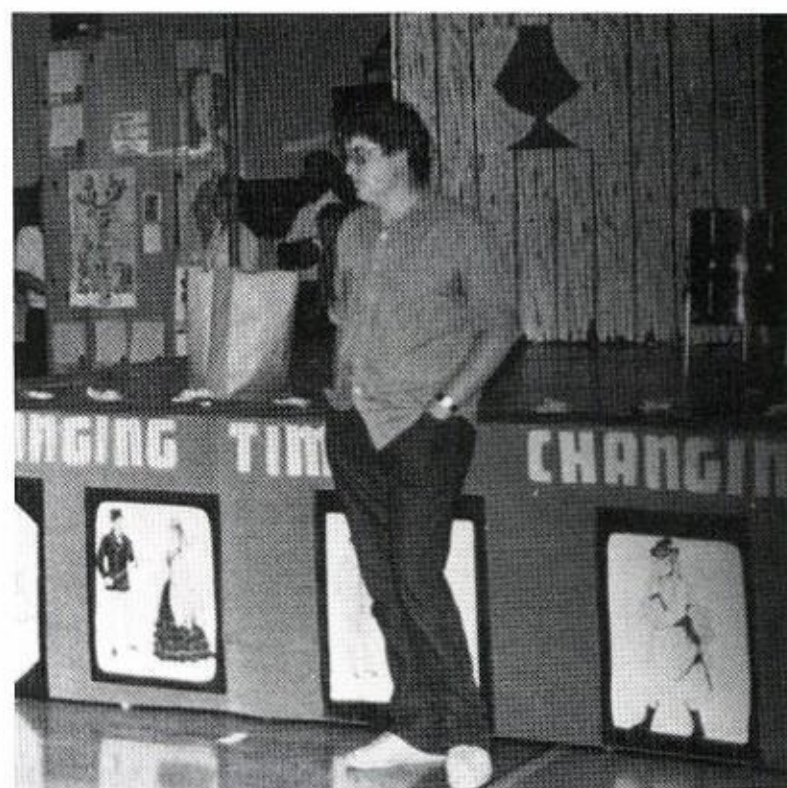

Gerald Humlicek, and Curtis Prohaska. Jim Kubik went to Kansas City, MO for the American Royal to show hogs. He placed second in Junior swine showmanship and Reserve Grand Champion for a Duroc Hog.

Gary Piercy placed second at Ashland for District Extemporaneous speaking. At the Saunders County fair, the Prague FFA Chapter placed first in Ag Mechanics.

The year was ended with a FHA banquet at Bre-stwood Inn, Fremont. The new 87-88 FHA Officers (shown above) were installed and are ready for another busy year at P.H.S.

FHA'ers were busy continuously during the year with activities. Members decorated a float with the theme of "Beach Party 86" for the Saunders County Parade in August. Once a month they provide a hot meal to give students a break from cold sandwiches. Towards Halloween they Trick-or-Treat for Unicef and raised \$86.30. The District IV Convention was held on Oct. 8 at East Butler. The Prague Chapter received 2nd place on their yearbook and 3rd on their scrapbook. One Friday a month FHA sells ice cream to P.H.S. students. For a money making project members sold Tom Watt which is a showcase consisting of a variety of items and they raised \$700.00. In November Search Events were hosted by the Howell's school. Connie Stava and Connie Kratky received silver on the display. Family and Futures - Gold - Deanna Houfek, Shelly Odvody; Consumer Education - Gold - Connie Kratky, Connie Stava, Marlene Sousek; Family Living and Parenthood Education - Silver - Kari Johnson, Brenda Belik, Tracy Vanek, Becky Vanek. Good Job Girls! On November 22 FHA sold honey for the Association for Retarded Citizens. On a Sunday near Halloween, Christmas, Valentine's Day and Easter, the chapter sponsors a Grandparent's party which consists of some type of luncheon and winning prizes playing bingo and different games. FHA Week was Feb. 8-14. Cupcake sales for Valentine's Day went real well. 76 doz. cupcakes were delivered. March 23 the FHA and FFA Royalty party was held at Godfather's in Fremont. Jim Kubik and Darlene Snitily were crowned King and Queen.

"STARS" SHINE AT PHS

This year's annual athletic banquet was held on April 3rd. The meal was catered by Johnny's. Our guest speaker was Gerry Gidowski from Fremont High School. Pep Club

L-E-T-S-G-O! Let's Go, Let's Go! This is one of the chants you can hear coming from the Pep Club at a game. The high energy of these students results in school spirit. Pep Club accomplishes many things during the year. 1. The cheerleaders got the Pep Club excited by doing a wild cheer. Everybody including cheerleaders, Pep Club, high school students and other fans were involved in the exciting Pep Rallies. 2. Mr. Brabec was one of the many to get wrapped up in toilet paper by their partners like Kim Smith. 3. The cheerleaders went wild in their trench coats. 4. The Pep Club and high spirited students also were in a 3-legged race. 5. Kari acted like Coach Luxford at one of the nerve-racking football games. "GO WIDE, GO WIDE!" 6. The cheerleaders and Pep Club raised some of that P.H.S. spirit out on the field at the Panthers' last home football game. The whole Football and Basketball season was full of excitement.

Running School Spirit

The Pep Club year was quite exciting with the 27 members as shown in the top left corner. Student Council Officers: President: Cory P., Treasurer: Darlene S., Secretary: Connie K., and Vice-President: Connie S.

Running high on activities, Student Council keeps busy through the year. Some of the Student Council's major purposes in school are to represent the Student Body and to promote student involvement. There are many activities that they put on for the high school. They sponsor a couple of dances through the year one of which is the Sweetheart Dance in February where they pick Royalty. The King for this year was Chris Egr, the Queen - Melissa Smith, Prince - Brian Prochaska, and the Princess - Marie McCullick. Student Council had a haunted house for a couple of years as a money raiser. They seem to always have a good turn out even though the rain has seemed to curse them. Student Council does one other thing for their own excitement and to get new ideas. They go to S.C. Conventions held at different host schools. As you can see Student Council runs steadily through the year.

Well, hey there sports fans! This year the Prague football team ended the year with a record of 8-2. The panthers also came home with a state runner-up trophy from the six-man state playoff. The Panthers were running but not quite fast enough as Stratton came up ahead by six. As the buzzer sounded, the scoreboard read Stratton - 20 and Prague - 14. The fans roared, "Number two on the charts but always number one in our hearts."

This year Prague was rated 3rd in the Omaha World Herald. They beat 4 of the 5 top rated teams which all goes to prove the type of schedule the boys played.

This year P.H.S. worked with a new coach. Many things changed. Coach Tom Luxford believes that the boys adapted to his new system well.

Netters Run Tough

It's 13-14, the bulldogs are up by one point on this hot, steamy night. The Lady Panthers have been on a streak of some sort - losing, I do believe. Okay, Now it's here, time for action. The serve is up, Connie Kratky bumps - Kim Smith sets - and Connie Stava spikes. It is good (crowd roars). But wait! The Bulldogs have pulled it up - a good bump (boo!) - a good set (more boos) - and a spike. It's a good one. Will the Panthers be able to dig it up? (Ball is in slow motion). The Lady Panthers are in formation, they're down and ready, can they do it? Their entire season is resting on this one, single split-second play . . . and, and, the ball hits the floor, the Bulldogs have an ace spike and the game is over! The Lady Panthers lose again!

In the 1986 season the varsity ended with a 3-10 record and the JV ended with 1-10 record. The Freshmen got to play two games. Their record was 1-1. We got some comments from the coaches. First, Asst. coach Foxworthy. "It is difficult to evaluate this season. The win/loss figures don't really tell the complete story as many of our games were close and hard-fought. The seniors provided experience and leadership. The season was disappointing in that I felt we had very talented athletes, and I know they wanted to win!" Now Coach Paseka "The volleyball records this year were not reflective of our hard work and determination in our matches as well as practices. Of our varsity losses seven matches went to three games with over one-half of them close contests. Four of our losses went to teams who were rated in the class D-2 top ten at some point. Our team statistics also improved over last year's tallies. The improvement of skills, determination and team-work provided many close and challenging matches."

RUN, RUN, RUN,

The Lady Panthers Run to a Winning Season

Although the 1986-87 Lady Panthers were in excellent shape, the much needed skills were absent at times. Their season started with a win over Cedar Bluffs which began their on and off year. The Pantherettes first loss came from C-1 East Butler before Christmas. Another defeat to Silver Creek left the Lady Panthers with 3rd place at the Holiday Tournament hosted by Petersburg. The next two losses were against class C-1 Malcolm and Class C-2 Waterloo.

"Team effort! And a lot of hustle and determination was our key!", said Coach Tom Luxford. The Lady Panthers finished their season with a 7-game winning streak before losing to arch-rival Snyder in sub-district finals at Cedar Bluffs. "We worked hard and played hard and lost as a unit!", said Coach Luxford of the Pantherettes 10-5 record. Nevertheless the Lady Panthers ran to a successful basketball season.

Boys Basketball Bouncing Their Way to State

The 1986-87 Boys Basketball team bounced their way through many things, such as the loss of one Johnson, the adjustment to the new Chris Johnson. The many games we won, and the few we lost. Winning Sub-Districts and then bouncing through Districts and finally bouncing their way to State!!

The season started off with a heartbreaking loss to Cedar Bluffs, then to Bradshaw. The Boys bounced back to beat both Rising City and East Butler. After a loss to Silver Creek, the Boys had a five-win streak until they meet up with Omaha Brownell Talbot and Snyder. The Boys then had five consecutive wins, until meeting Amherst.

"It was a very satisfying season in the fact that no one had expected us to make the State Tournament after starting with a 2-3 record in December," Coach Kevin Behne told us.

Coach Behne was also very pleased with a 63.4 average for offensive rebounds and a 51 defensive rebound average. Coach also was very pleased with the defeat of McCool Junction, ranked 3rd, during the regular season.

Senior guard Roger Kubik summed the season up when he told us, "It was a good season, but things could have been better with more effort and harder practices from the players. Good luck next year to the Prague Panthers."

Dale shoots for two in his own unique style!

ON THE RUN TO NUMBER 1

The 1986-87 school year was an exciting one for the football and boys basketball team. The football team had a record of 8-2 and went on to State Championships at Campbell. The football team was sent off by a huge pep rally led by the Prague Boosters Club and parents of the football team. Playing during below-freezing temperatures and sleet, the Panthers lost after a 4th quarter rally by 20-14. Coach Luxford said, "The winning tradition started by the football team was carried on to the basketball team. It was 30 years since the last football playoff Prague was in. I think we have a shot at playoffs again next year."

The boys basketball team had a very exciting State Tournament trip. After winning big in sub-districts and districts, the boys were seated 3rd. They matched up with 6th rated Amherst. Breaking a state record with their 3 overtime game, every player and fan was exhausted and anguished when the boys fell short by 3 points. Amherst went on to be D-2 State Runner-ups. Coach Behne, talking of his team's state tournament game, "The boys played some of the best basketball I ever saw them play. Even though we lost, the boys have nothing to be ashamed of, they gave it their best effort."

TRACK RUNS FOR P.H.S.

The 1987 Track season consisted of 14 members. They are pictured above middle. Kneeling: Robbie Koranda, Gary Piercy, Melissa Smith, Traci Kavan, Shelly Odvody, and Carmon Egr-St. Man. Standing: Larry Koranda, Cory Piercy, Kari Johnson, Kim Smith, Michelle Johnson, Deanne Wade, Deanna Houfek, Sherri Paseka and Coach Luxford. The track team gave an excellent effort and improved in every aspect. 9 out of the 14 athletes broke school records.

The track meets that Prague participated in were Lyons-Bancroft, Osceola Invite, Murray-Conestoga, East Butler, and district at York. The 14 athletes all gave a great effort to get medals and place at the meets.

At left, the Kindergarten class look on attentively, watching their teacher and learning. Lower left, there's a Valentino's pizza party in the Kindergarten room and lower right, Andy, Amy Leann, and Jeff pause from reading for a candid.

The Kindergarten class consisted of 10 anxious beginners who enjoyed their first year of school. The class started the day off with the flag salute and then pinned up the day of the week on a calendar.

Among some of their favorite school activities were recess, show and tell, and music. Each week, they learned a new letter. Miss Potter taped a letter on the floor and they learned how to make the letter and pronounce it. They also learned new shapes and their ABC's.

At the beginning of the year, all of the kindergartners made time capsules. In the capsule they wrote the alphabet, and their name, and numbers they knew. At the end of the year they opened their time capsules and revealed how much they learned throughout the year.

I'm sure these 10 youngsters have had fun and learned a lot during their first year at Prague Public School.

The first and second graders started the year off by studying a unit about cowboys and western life. The picture on the left shows them on a day, specially set aside, where they could dress up as cowboys and cow-girls.

When interviewed as a group, the majority said that math was their favorite subject. Mandie Smaus, a first grader, said that she liked science, and Jason Matulka, a second grader, said that he likes math. They also study handwriting, phonics, reading, language, social studies, and spelling.

When asked what they liked best about school, P.E. got the most votes followed by recess, art, and music. Donny Sousek, a second grader, said that getting to play with the other kids is what he likes best.

This energetic, young group seems very enthusiastic about getting a good start in the race of their school years!

For the third and fourth graders the 1986-87 year was full of surprises, some laughs, and deadlines. Trying to get their homework done and still have a little fun kept the third and fourth graders busy. Their school day started with math, art, music, then English. Twice a week they had P.E. followed by spelling, social studies, and science. Most of the third and fourth graders liked their math class best, and English was the second favorite.

When asked what their favorite game at recess was, Holly, Heather S., and Doreen said, "Four Square". Chad U. and Chris K. replied, "Football!!!"

This year the 5th & 6th graders are a massive 21 students who are enthusiastic about being one more grade ahead than they were last year.

From a poll taken most of them like school, the T.V. show *Perfect Strangers*, the rock group *Twisted Sister*, and the movie *Back to the Future*. On the poll was the question: Do you think that when you are Seniors you will be more rowdy than the Seniors of 1987? Explain! Lenny Swartz replied, "Yes, I'm more rowdy and my dad will buy the tires after I tear around town." Michael Brabec says, "No, not in school because the teachers keep getting meaner and meaner each year."

"What class do I go to now?" is a familiar question asked by seventh graders the first day of school. It is a change for them to move from one room to the next, one teacher to another but they quickly pick up the routine.

The 7 and 8th graders share many of the classes this year because the numbers are so small. Studies include Geography, Math, English, Life Science, P.E., Plain Literature, Vo-Ag Art, Home Ec., Band and Chorus.

When asked in a survey what he liked about being in Junior High, Dwain Prochaska commented, "You don't get bossed around by anyone younger than you." Brian Kubik liked the fact that they were soon to be in high school.

The Junior High went to Fremont for their field trip with a visit to the movie and Godfather's.

New beginnings, strange faces and different classes are all in a normal day for the Freshmen. The majority of the freshmen replied that they liked high school. Deanna Kubik said the biggest change from Jr. high to high school was more responsibilities.

The freshman class had a choice of what they wanted to take first hour. They could have taken Visual Arts, Plains Literature, Computer, Band or Chorus. The second hour was English and then on to third hour class, Physical Science. Fourth hour was Vo-Ag or Home Ec and then on to Mr. Behne's class, Civics. P.E. was next and last, but

not least Algebra.

The freshmen had many problems and worries during their first year. Some of them were wondering, "What am I going to do after graduation?" Another worry was getting good grades. Others were concerned about their position on the totem pole—being a lowly freshman.

The freshmen had many things to look forward to this year. Robbie Koranda was looking forward to playing sports. Michelle Johnson, a new student, was looking forward to being with her friends. The freshmen have made a step at PHS.

The Sophomores were swing'n right through their school year. They didn't have much of a chance to select their class schedule but they did get to choose their first period class. The choices included: computer, chorus, band, Plains Literature and Visual Arts. Gary H. commented, "Plains Lit. is interesting because there are students from different classes." Not just sophomores.

The most exciting thing that happens during a sophomore year is waiting for the moment their class rings are delivered. They arrived in October.

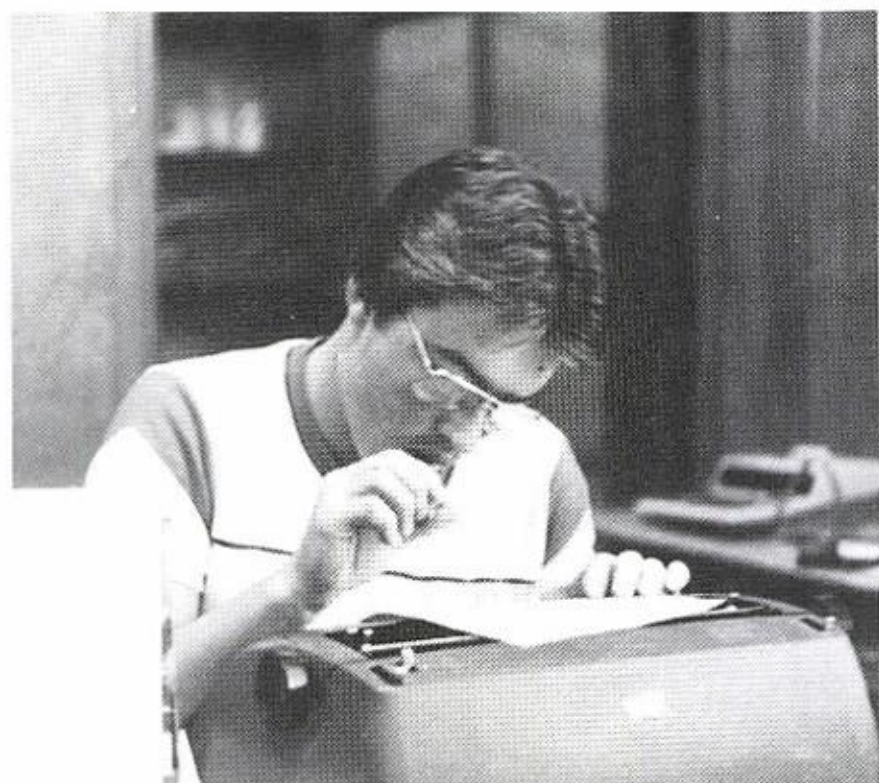

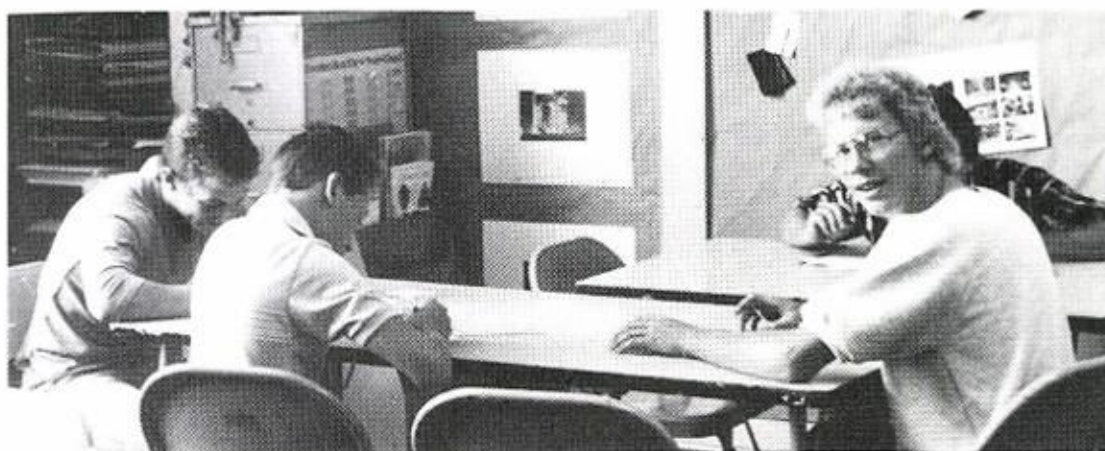

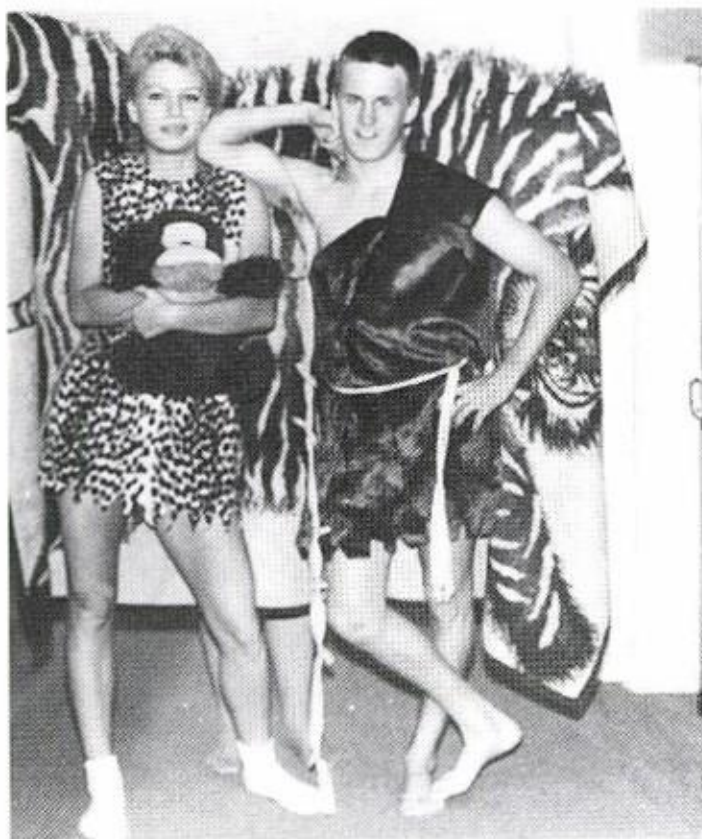

On their class trip they decided to save a little money. They rented a couple of movies and watched them at Miss Bean's house after they ate pizza at Godfather's in Fremont.

To raise money for their class they finally decided to have a car wash. It went over pretty well. As you can see the sophomores did have a swing'n year at P.H.S.

Jivin' Juniors

Steppin to the beat

Juniors this year are full of jet spirit; participating in many homecoming activities and winning many of the Spirit Week prizes among them a spirit stick for the most spirit in their class. At top left Becky Vanek and Gary Piercy as Tarzan and Jane during spirit week.

Magazines sales were one of the main projects of the Junior Class this year. Every year they sell magazines to raise money for class expenses and prom.

The Junior's were also busy planning, preparing and decorating for their successful prom.

Juniors had quite a work load this year with their classes of History, English, Spanish, Computer, Typing I, Home Ec III and Chemistry, to name a few. Juniors were also involved in sports, play, FFA, FHA. Pictured above- Mike Kubik hard at work during typing class and Larry, Curtis and Troy in art class.

As the end of the year drew near at PHS the class of 88 advanced steadily onward toward completion of the final phase of their high school career with a tremendous feeling of spirit and cooperation.

A class officer has a lot of responsibility and leadership skills to learn along the way; from making those few phone calls to counting the last penny.

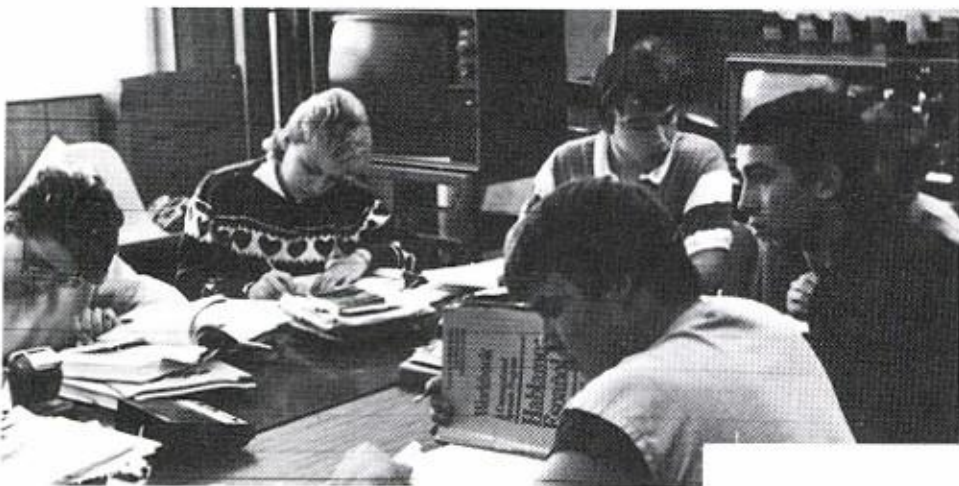

Although people might hate to follow directions, they have to realize it isn't easy being an officer. Freshmen Pres. Stacey Hanis responded, "Sometimes during the meetings it gets tough to keep everybody in order." Just because you have a healthy Pres. doesn't mean a Vice-Pres. has it easy. A lot of decisions need to be made and Cory Piercy likes to make those decisions because, "It makes me feel important." To handle class money is a great honor but as Connie Kratky said, "It takes a lot of time to put all the records in the book and keep them straight." Most everyone agreed that the class members "Do a pretty good job."

PHS

GUIDE TO SURVIVE

Let's face it-everyone needs a little help in their life to help them survive-whether it is advice about homework, boyfriends, girlfriends, or just coping with those Monday mornings. If you walk through the hallways at PHS you will always hear some juicy gossip of what people did on the weekend. Sometimes just sit back and think "How could they do that in one night?" Or what about some of those classes when the night before you stayed up watching T.V. or studying for the big test? To help you out, we asked students some of these questions and here's your **Guide To Survive**.

1. Helpful hints in surviving a weekend.

Rent movies and stay home and watch them.-Cory

Go cruising, and out to eat.-Stacey

Get your homework done first then go out and have fun so all you have to worry about is going to sleep Sunday.
-Roger

There's no way to survive because you don't really want to. You have two choices: Stay home or suffer the consequences.-Kim

Top left: Deann H, Brenda, and Shelly just hanging around. Middle: Spanish I class keep themselves busy through the year. Bottom: Becky chows down while getting some of her work done. Bottom right: Mike shows off his car.

2. How do you escape falling asleep in class?

I stay alert while trying to see who "is" falling asleep; like listening to Larry snore behind me.-Becky V.

I don't I just paint eyes on my eyelids.-Gary Piercy

Stare at the teachers face and watch their lips move.-Deanna H.

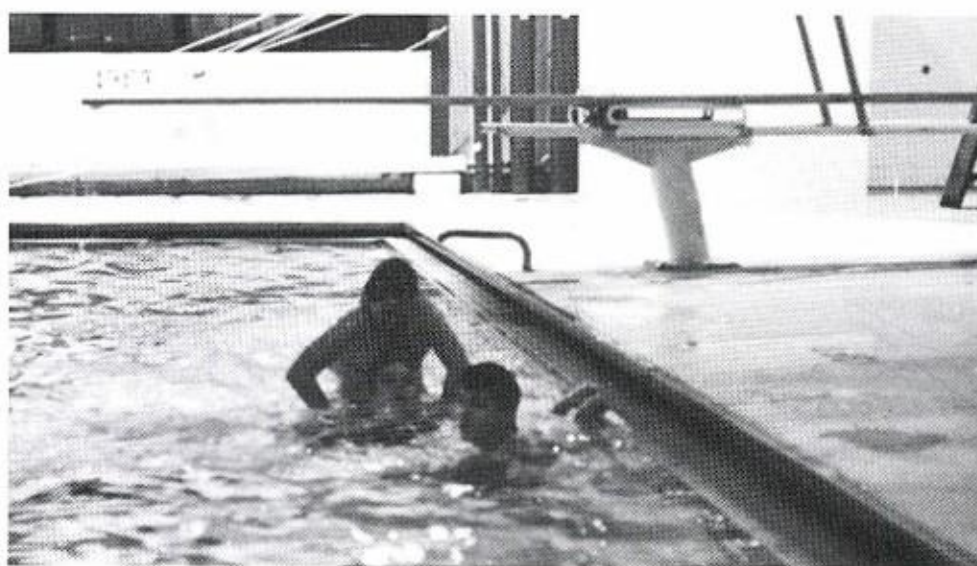

What P.H.S. Students do on the Weekends

There are an unlimited number of things. Students can be found at their friend's house most of the time. They practically live there. As you can see in the picture below of Brenda B. and Tracy Vanek at Tracy's home.

Some kids do have to work on weekends. Many work on farms as seen below, Scott Polacek and Chris Johnson working with corn.

No matter how cold it is outside, weekends can be enjoyed at a Prague game. Kids do have a tendency to visit other schools' games even though it might sound like a good excuse to a parent.

Swimming, roller skating, bowling, and hunting are a few things that students enjoy. Swimming is Marie McCullick, Connie Stava, and Scott Polacek having a splash of a time in the pool at Peru State College. It just goes to show you the students at P.H.S. know how to have fun on weekends!

Nicknames

Nicknames at P.H.S. have gotten started in different ways. Some names have started by shortening the last name. For instance, Gary Humlicek is known as "Homer," Deanna Houfek is called "Houf," Brian Prochaska goes by "Pro," and Duane Havlovic answers to "Huv," Can you guess who Beck is? Of course it's Matt Beckdolt.

There are some people that get nicknames because they do something to earn that nickname. For example, they call Scott Polacek "Frog" because of the way he walks and it just fits him. The juniors say they gave Gerald Humlicek the name "Chuck" because he is always smiling. Connie Kratky and Connie Kremlacek, are "Red" from their hair color. Dale Focher got labeled "Roch" from a pep rally and it has stuck since.

Nicknames show a special part in friendship, so don't feel awkward just because you have one. It just shows that people notice something different about you or just that you have too long of a name and they want to spice it up a bit.

Nicknames help distinguish a person's identity. Sometimes, however, no matter how hard a person may try to shake it, that nickname seems to hang on forever!

School Life

In years past, the annual has been only who kids are; not what kids want, like, or need. This year, since we're running with PHS, we decided to tell you what the Panthers need, class-wise. This whole section is all about classes we take, enjoy, or dread. School life plays a big part in our Panther lives, and taking the right class may help decide what happens after graduation. We have new classes, required classes, and optional classes all in our school system. Go onward, read and . . . Run PHS!

At right- Relaxation time in the gym over noon break to catch up on all the latest news.

Above- Mr. Brabec enjoys running the fun with his Jr. High class. Below- Scott Polacek models his new designer dressing while working with acids.

Running the Fun

Mr. Brabec's class is taken because of requirements and because of fun.

We asked what the most exciting thing was about taking a class with Mr. Brabec. Little did we know that the Art room would be bombarded with answers!!

"Everything dies!!" Connie Kratky exclaimed. Scott Polacek jumped in with, "Gary and he had a bet if a plant would survive the year, and it seems to be looking weaker already!"

So we took into consideration that Mr. Brabec is . . . shall we say . . . exciting in his high school classes. But maybe he tones down for Jr. High. Wrong! Jeff Sousek told us about the time Mr. Brabec stood on a desk to prove a point. What point we asked. Jenny Vanek laughed, "He jumped off the desk to act like he was flying!"

But it's not just goofing off in Mr. Brabec's class. Many students said that they learned fun and exciting things. Marie McCullick discovered not to play with acids. Kim Smith learned about the body in Physiology. Doug Havlovic participated in dissecting frogs (fun?). And Joni Johnson learned the most important thing. "I don't like to take notes!!"

Mr. Brabec is also the Guidance Counselor for PHS. When asked how he feels about this, Mr. Brabec replied, "I enjoy trying to help students with their problems. It gives a more personal side."

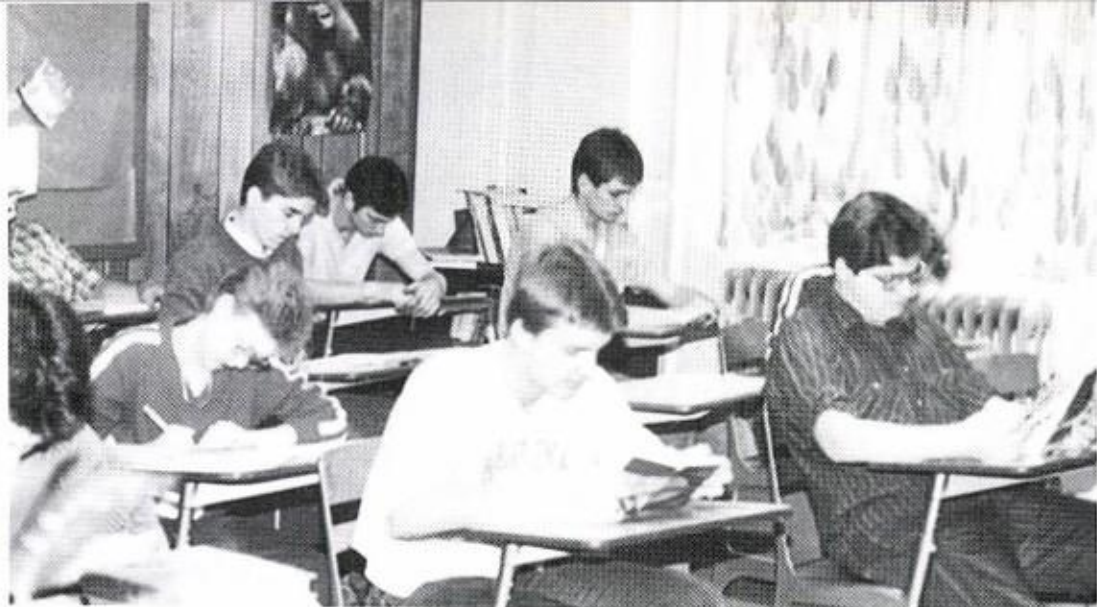

The students agree that this is a good idea and everyone seems to agree that Science class has it's moments of Running with the Fun.

ENGLISH

English-the required class everyone must take. The word brings terror to some, no feelings to others, and joy to a few. Some kids love and some kids hate the class but not the teacher, Mrs. Linda Foxworthy. The vote is practically unanimous that Mrs. Foxworthy tries to make grammar and literature fun. "I like teaching English because for one thing its a required class so I get to see every student."

When asked how she feels when students complain about having to take English or Literature, she said, "It depends what kind of mood I'm in, a "you-should-be-grateful" or "tough-life's-not-easy-for-you" mood. It's a challenge because not only students who are good at it are in here."

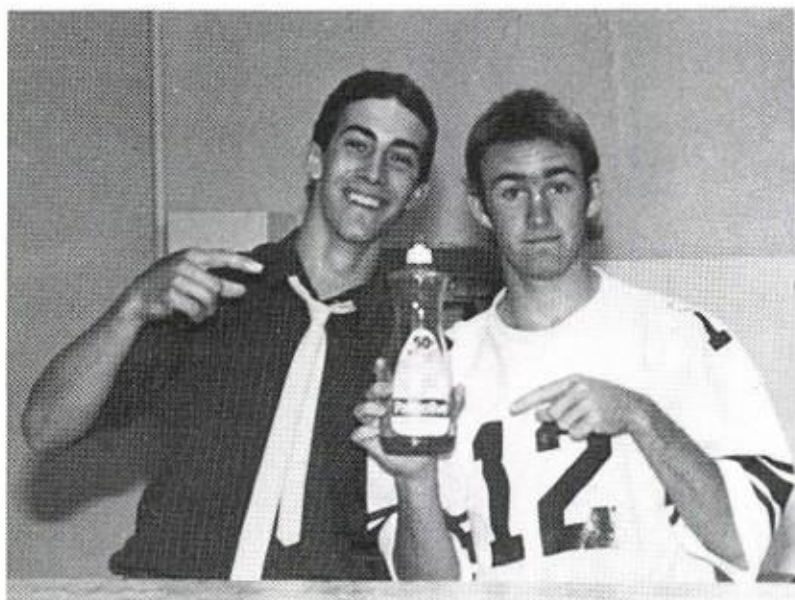

As for the student's view, Tim Hennessey summed it up with the reply to this question: Why do you like the teacher or the class? "She is a good teacher so I like the class and I get to finish a lot of the other work from other classes." Although many students agree its difficult, most say they are learning for the future.

Working, for a change in English class!

HOME ECONOMICS

You've run a long way baby!

Home Ec. class has really changed in the past years. A class that used to be learning to cook and basic sewing skills has turned into much more.

Home Economics is required for female students in 7th grade through 9th grade. After these three years it becomes optional.

In the 7th grade class, the girls learn mainly about basic food and nutrition. They also scan over grooming and basic clothing skills.

The one and only 8th grade girl this year, Jenny Vanek, says she gets a semester of Basic Clothing. "Being alone, it gets really boring. It's easier though because I get more help."

The 9th grade have a comprehensive class. They learn mainly about housing, dating, and clothing.

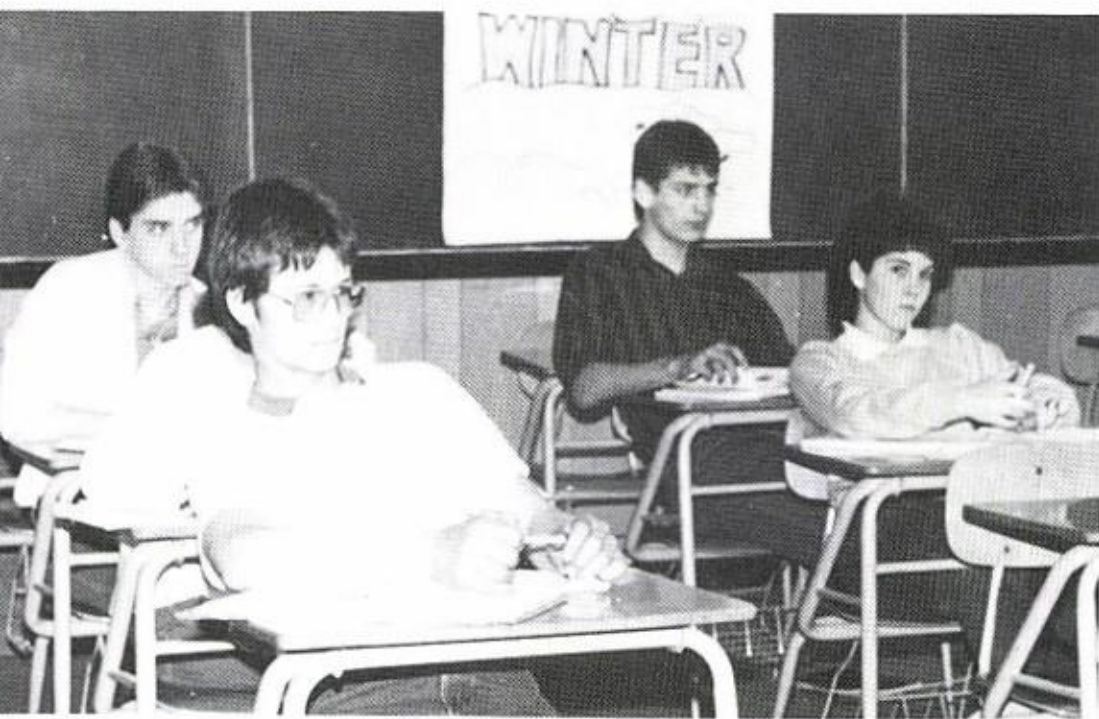

The 10th grade, during 1st semester, learn about Food and Nutrition, and in the 2nd semester they learn more about clothing.

The Juniors have a fun year with Housing 1st semester, and Child Development in second semester.

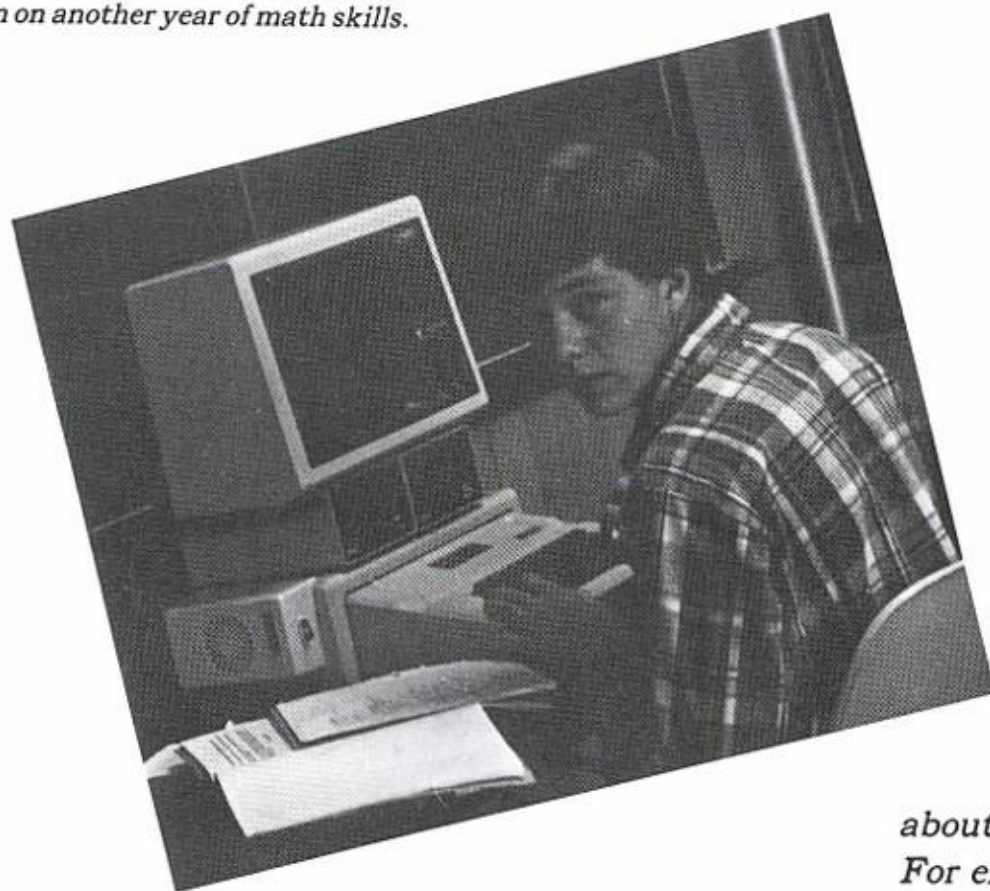

The Seniors are able to take two Home Ec. classes. Home Ec. IV is Advanced Clothing Textiles and Advanced Nutrition and Food. The other class is Adult Living which Seniors girls or boys can take. In Adult Living the Seniors spend one semester on Consumer Education and one on Parenting Education.

As you can tell, the Home Ec. Department keeps Mrs. Joyce Paseka very busy.

Above: Sophomores rack their brains on some geometric figures. Below: Jr. High closing in on another year of math skills.

Torrey Dauel and his friendly computer.

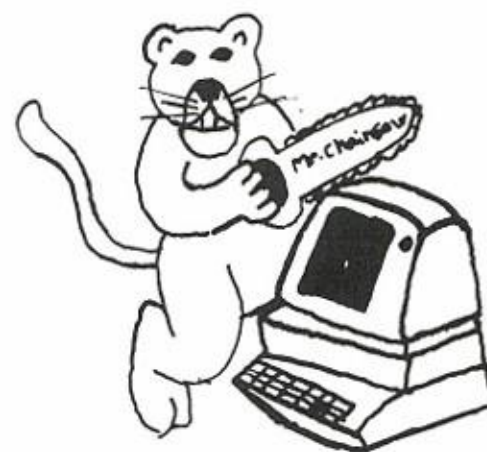

initial method of programming that is faster, cheaper and easier. If you don't catch that class you can take the class Office Machines taught by Mrs. Sackett which works with the word processor, spread sheet and data base. Mr. Hansen commented, "Society has made computer knowledge a must."

Math-A Challenging Class?

Students are not into self-punishment or thriving on panic but they are into challenging their brain with figures, dimensions and formulas.

Jr. High studies basic math problems solving, computation of skills, geometry and measurement of charts and graphs. They ready themselves for advanced math classes. Freshmen have Algebra I which has intergers, equations, factoring, fractions and basic functions which makes brain cells work overtime. Sophomores take Geometry and challenge themselves with proofs and basic geometric figures. Juniors and Seniors have the opportunity to choose if they wish to take a math class. Algebra II is offered to Juniors and Trig and Pre-Calculus for Seniors.

When math becomes too challenging you hear complaints from the students. Miss Thomsen explained, "when I receive complaints, I try to encourage the student that what they are studying will help them. If not directly in the career they pick, it helps them to increase their thought patterns. It is important in life to step back and think out all the possibilities; like in math problems."

Computer Classes

Running with the pace

Society is advancing in technology so fast the students need the opportunity to keep pace in this era. There is a definite need to learn about the computer to seek most any kind of employment.

For example farmers can gain knowledge to help out costs and help with other management planning. All the effort, time and patience involved can sometimes make you want to take a saw to your friendly computer but the results can be rewarding beyond your imagination.

B U S I N E S S

Hola, Que tal . . . words from another language-or from another world? Thirteen people dared to learn this mumble-jumble this year. The classes met every day in the Audio Visual (A.V.) Room instructed by Miss Beans. They watched films, studied, read stories, studied, talked on the phone to a Spanish instructor (yuck), and studied. But their classes were not all work and no play. On certain days they cooked food that came up in their Spanish dialogue. But, of course, the Spanish I and II classes enjoyed (for the most part) their year, but as Brenda, a first-year Spanish student would say, "I don't think I'm gonna pass it."

At left-The Juniors are typing away. Above-Scott working (or pretending to be working) on the computer. Below-The Accounting class taking notes.

Anything from typing, to adding and subtracting, to listening to a tape of dictation-that's Business. From Typing I, Office Machines, Accounting, to Business English and Communications, Business Math, and Office Procedures, Mrs. Sackett keeps herself busy. Her day started out busy and ended busy. Her day was a full load of seven classes, with 30 students in and out of her room. Many students had more than one class with Mrs. Sackett-like Darlene- "I have Office Machines, Accounting and Office Practice with her. Sometimes the work is hard, but usually not. I'll tell you now, she's the teacher who gives me the most work!!!"

*Most of the students liked her classes even to the point of almost, **sort of**, enjoying it! But there's always Gary Piercy, "It's frustrating!"*

S P A N I S H

The Spanish class Quotes:

"Trying to translate and doing the workbook is the hardest. The best part of it is the fun and interesting classes. I've already taken it four years!" Kim (Carlotta)

"It's a big challenge. No one should expect to breeze through it. It's difficult and takes studying." Becky (Rebecca)

Business Quotes and "One-liners"

What's the best part of your business class?

"When I get Mary in trouble." Jim "I like the timings and make-up days." Margaret

"Gossiping!!!" Marie

"The assignments." Chris E. (Really Chris?)

"Eyes on your copy." Mrs. Sackett "A secretary's work is never done." John

"Can I have the bathroom pass?" Larry

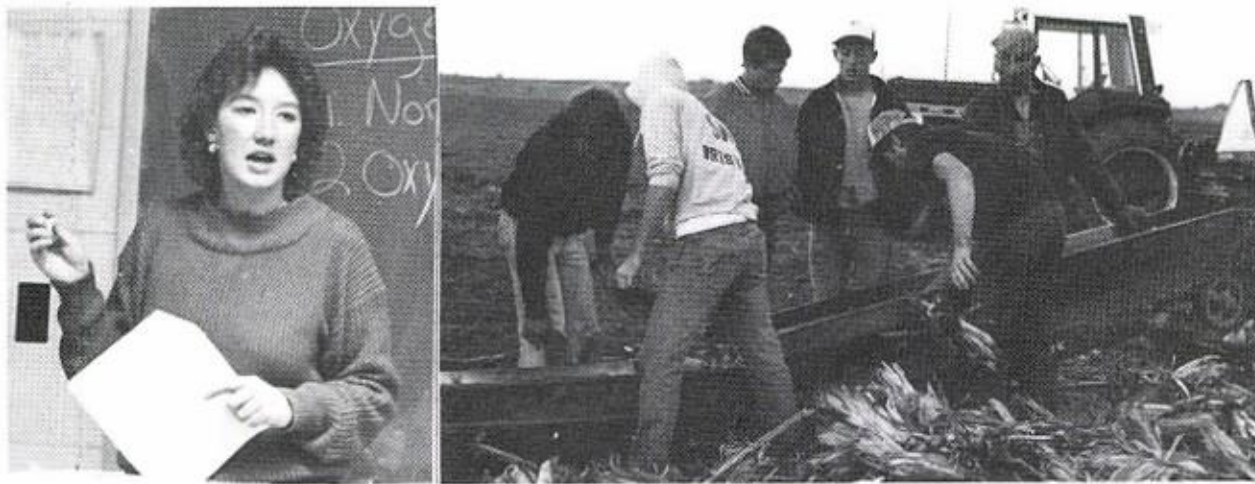

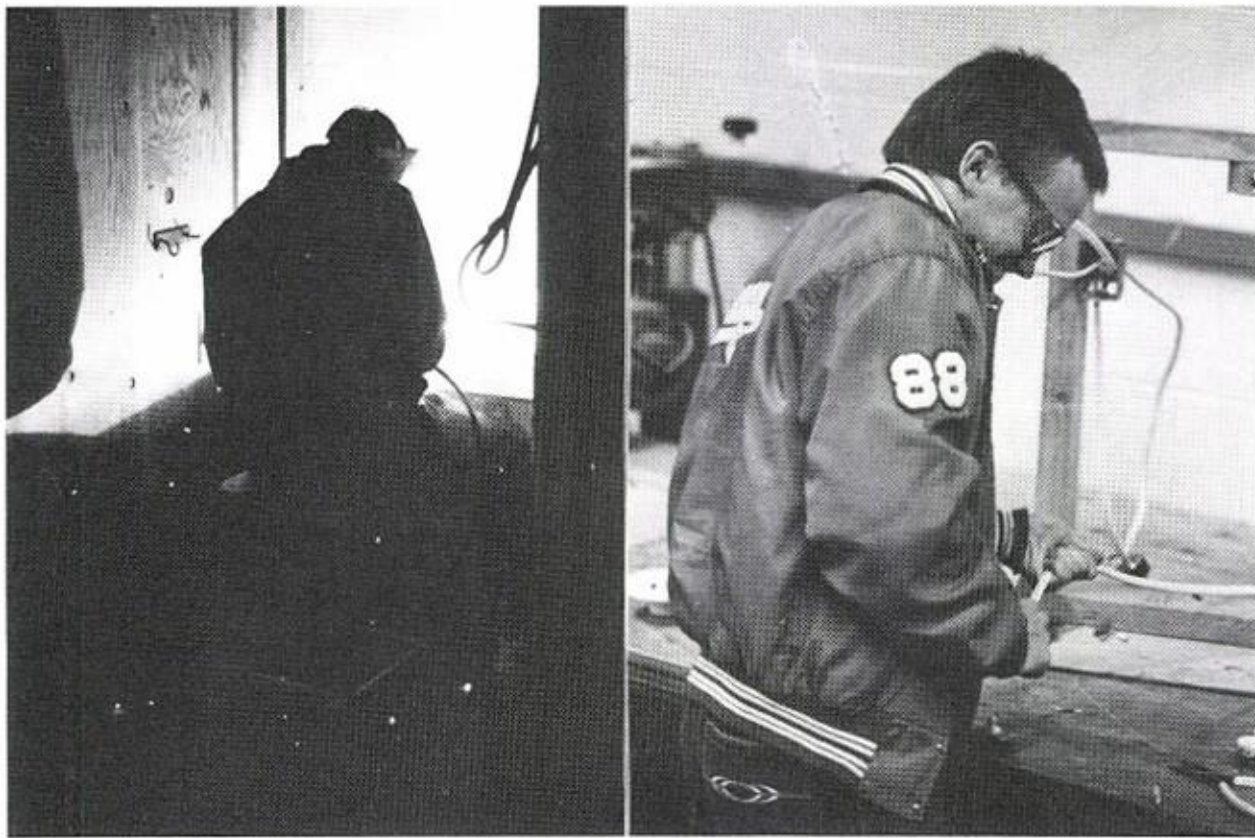

No Doubt About It!

Vo-Ag Students at P.H.S. Learn

Because Prague is a rural community and agriculture is the main industry, some may think the students would know almost everything already. Well, that's not true. The students' list of things they never ever knew before range from using saws, judging soil, the types of beef and swine, making wire, building garages to welding. Mr. Collins added, "The most important thing the Vo-Ag students can learn is that Ag is our ever changing industry and to be successful you need to keep abreast of those changes."

Two changes in the class schedule this year were the start of an Ag-Business class which deals with Human Relations, Salesmanship, Distributing, Advertising, etc. of Ag products. Cory P. recommends the class to students who want to get into business occupation. "It is a GREAT class," as Chris E. said. The second was the arrival of a student teacher who graduated from the Ashland-Greenwood High School-Lisa Haldeman. Before she left on Dec. 17, 1986 she commented, "I really enjoyed student teaching here at Prague! The staff here have been super! The students are great, they are a lot of fun and for the most part they seem like they want to learn!"

Top left: Chris J. is showing the skills of welding. Top right: Gary Piercy performing a wireless act. Bottom left: Student teacher Lisa Haldeman. Bottom Right: Vo-Ag students hard at work picking up corn for a project.

What's Happening?

In the History Classes at P.H.S.

Students are either sleeping or watching others sleep. Well, not really-even though they complain history is boring taking notes and having everything repeated over, many students enjoy it and would take history if it wasn't required. Mr. Behne's explanation for complaining students is "They complain just to hear themselves talk." Although Connie Kratky added, "He is one of those teachers who loves to talk, talk and talk."

You can find the Jr. High trying to get enough passes to go to other rooms but they study the basic **geography** and the affect it has on human activities with a 9 week study of **Nebraska History**. Freshmen's course in **Civics** isn't just counting the minutes until the bell rings but of citizenship in our gov't and the modern problems of the world. **World History** is the hardest to understand and learn for a sophomore according to Mr. Behne because people, places and ideas are studied and compared from country to country. The only way Sasa W. said to live through it is "sleep with your eyes open." The juniors course in **American History** acquaints the student with how American society developed in the last 120 years-not pick up hints on "how to keep your foot on a trash can but never fall in." Although Marie M. said "It should be half-way decent in trivial pursuit." **American Government** tries helping the seniors decide why gov't is needed and ready them for the adult world. Mr. Behne wishes he'd only have one session of geography but as his ton of 9" length chalk would have it, he teaches a Sr. High **Geography** that alternates every year with **Economics**. This is the only elective history class where it's up to the student if he wishes to have his eyes double focus from looking at the black board so long.

As you can see from the picture at right, a lot can happen with the "ultimate" history teacher at P.H.S.

Not Shown: Brenda Belik, Traci Kavan, Matt Bechdolt, Kim Smith and Deanne Wade.

"SAGE OF SAGEBRUSH SAL" was a melodrama presented at the one-act play contest held at Peru State. It was also presented as part of their spring play. It is the story of Sagebrush Sal (Connie Stava) and her attempts to take over the Bloody Turnip Saloon, run by Jake the Snake (Scott Polacek). Her daughter Hazeltine (Melissa Smith) finds true love with Heartbleed Haymeadow (Gary Piercy). It is the classic melodrama as narrated by Marlene Sousek which includes Cowboys, Indians and Can-Can Girls.

THE UNINVITED GHOST - A group of teenagers plan a surprise birthday party to be held in a "haunted" mansion where an unsolved murder was committed twenty years before. A mysterious "lady in black" terrorizes the group. Who is she? And who are the strangers looking at the house? The teenagers manage to solve the crime and the mystery of the crying baby too.

Cast of Characters:

Hortense Gardiner - Marlene Sousek
 Jim Elliot - Scott Polacek
 Dorothy Warren - Becky Vanek
 Mrs. Flinch - Tracy Vanek
 Madge - Connie Stava
 Betty - Melissa Smith
 Bill - Gary Piercy

Speech Team - Bottom: Tracy, Sponsor - Mrs. Foxworthy, Brenda; Top: Melissa and Gary. Above picture is Gary Piercy reading *The Life of Walter Mytty* during intermission at the Spring School Play in May.

Speech Contest Rate High

Four students participated in the district speech contest held in Clarks in March. Gary Piercy earned an "excellent" rating for his humorous prose reading from *The Secret Life of Walter Mytty* by James Thurber. Another "excellent" was received by Melissa Smith for her poetry reading. The duet acting team of Tracy Vanek and Brenda Belik selected a reading from *Voices from the High School* and earned a well-deserved "superior" rating.

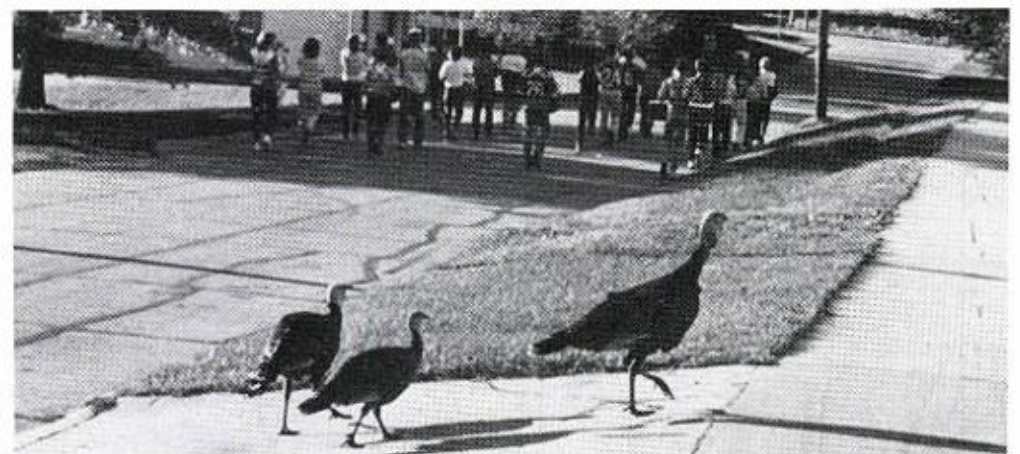

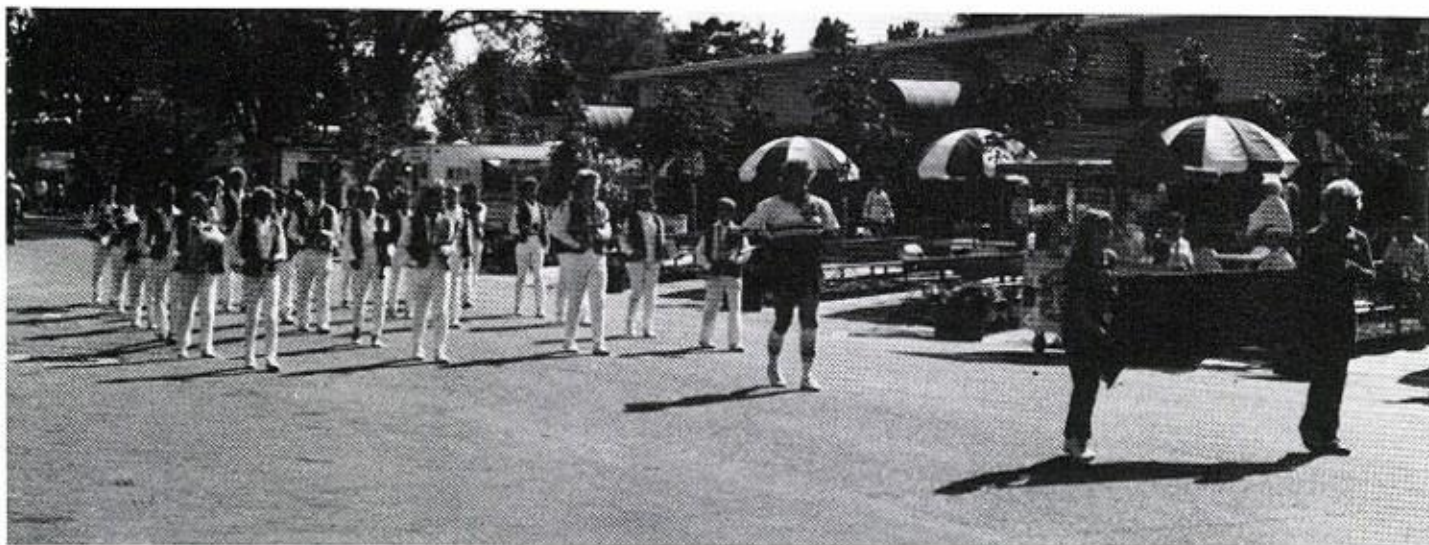

BAND KEEPING TO THE BEAT

The band members were First row: Gary Piercy, Margaret Stanek, Joey Nemec, Brian Kubik, Ryan Vanek. Second row: Becky McKesson, Stacy Hanis, Traci Kavan, Tammy Wirka, Deanna Houfek, Dale Peterson, Miss Beans. Third row: Sheri Paseka, Robbi Koranda, Doug Havlovic, Greg Malina, Jeff Sousek. Last row: Elizabeth Nemec, Mark Ostry, Cory Piercy, Larry Koranda, Troy Kavan and Dwain Prochaska.

This year was the start of the Prague Marching Band. The Band marched at the Shrine Bowl Parade, the State Fair, and Grand Island's "Harvest of Harmony."

Among their other performances were various pep band appearances, including Girls District Basketball Tournament, Winter and Spring Concerts, District Music Contest, and Memorial Day services in Prague and Malmo.

CHORUS KEEPS UP THE ENTHUSIASM

Chorus - an everyday class for the high school students at Prague. They are constantly busy practicing for the Christmas concert. District contest and Spring concert. Though it is hard work, they still keep the high voltage for singing.

In the classroom every morning Miss Beans begins to have warm-ups to get her students' voices ready to sing songs they need to work on.

You can tell that chorus is well liked because there are 24 chorus members in the class. So if you want to see kids having fun, go see the P.H.S. students performing in the classroom or on stage.

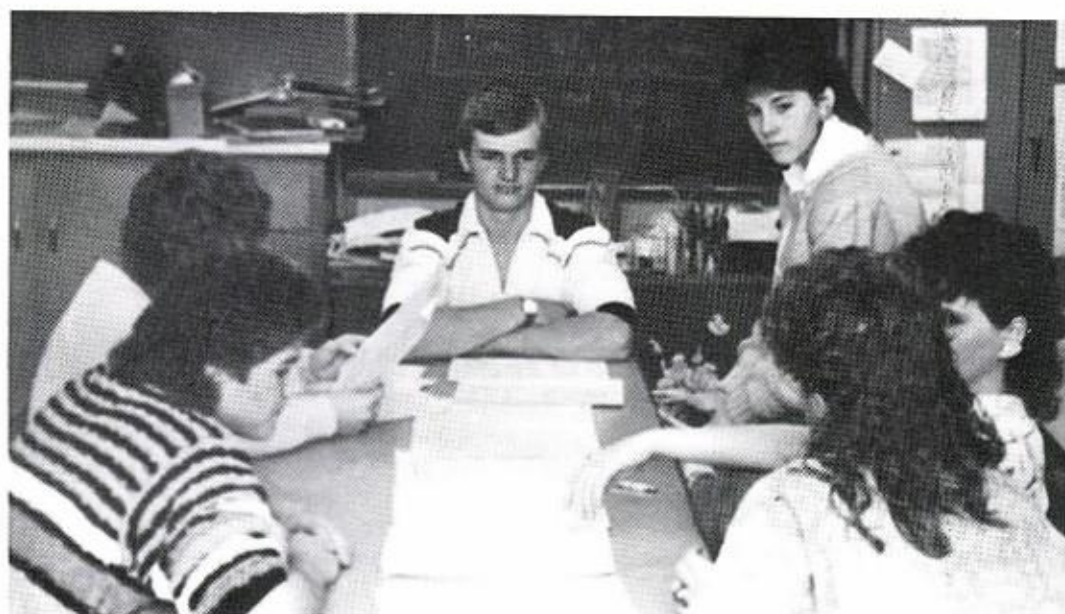

High School chorus members: Deanna Houfek, Connie Kratky, Mark Ostry, Robbie Koranda, Troy Kavan, Larry Koranda, Connie Stava, Michelle Johnson. Second row: Sherri Pasaka, Darlene Snitily, Margaret Stanek, Cory Piercy, John Kasper, Marie McCullik, Marlene Sousek, Miss Beans. Front row: Carmon Egr, Tammy Wirka, Traci Kavan, Stacy Hanis, Elizabeth Nemec, Connie Kremlacek, Deanna Kubik and Brenda Belik.

Jr. High school chorus members are; top row: Jeff Sousek, Dale Peterson, Brian Kubik, Ryan Vanek and Doug Havlovic. Bottom row: LeAnn Snitily, Becky McKesson, Jenny Vanek, Dwain Prochaska, Greg Malina, Joey Nemec, and not pictured: Joni Johnson.

Pictured to the lower left are the Kindergarten singing at the Christmas concert. Picture at the right are Scott Polacek, Troy Kavan, Mark Ostry, and Rob Koranda.

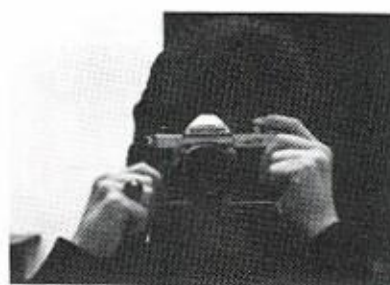

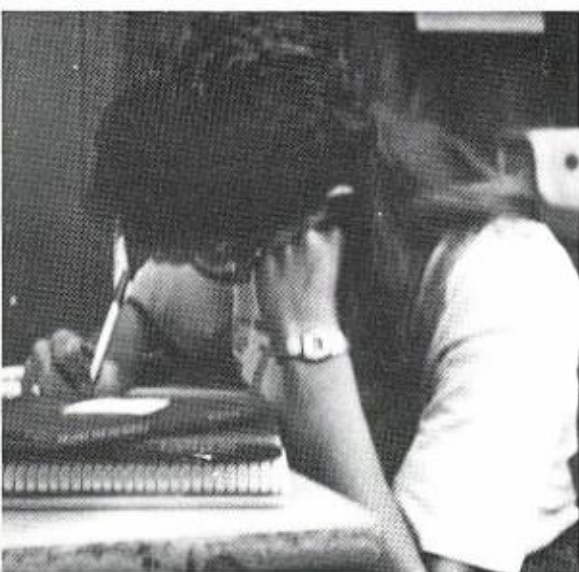

ANNUAL STAFF

This year's annual staff started the year with 12 students dropping to 9 at 2nd semester. These students worked hard planning pages, developing and printing pictures, and meeting company deadlines.

The annual staff had a raffle for an annual with tickets being sold by the staff members. The highest sales person was Brenda; she received a free annual. The winner of the drawing was Mr. Luxford. Ads were sold to Prague and surrounding areas. The annual staff sold over \$2,000 which covered about $\frac{2}{3}$ of the cost of the annual.

This year the annual staff asked all the students in the school to design an annual cover and the winner would win a free annual. The student body voted on a cover that they liked. The winner was Tracy Vanek with the idea of RUN PHS.

The staff planned the annual this year to include more student life, accent on different classes, art work, and different usages of gray and, to the students' dismay, lots of copy. The making of the annual became a class this year for the first time in a number of years. It enabled more time spent on thought and planning for the entire book. The class also took pictures to send to the papers.

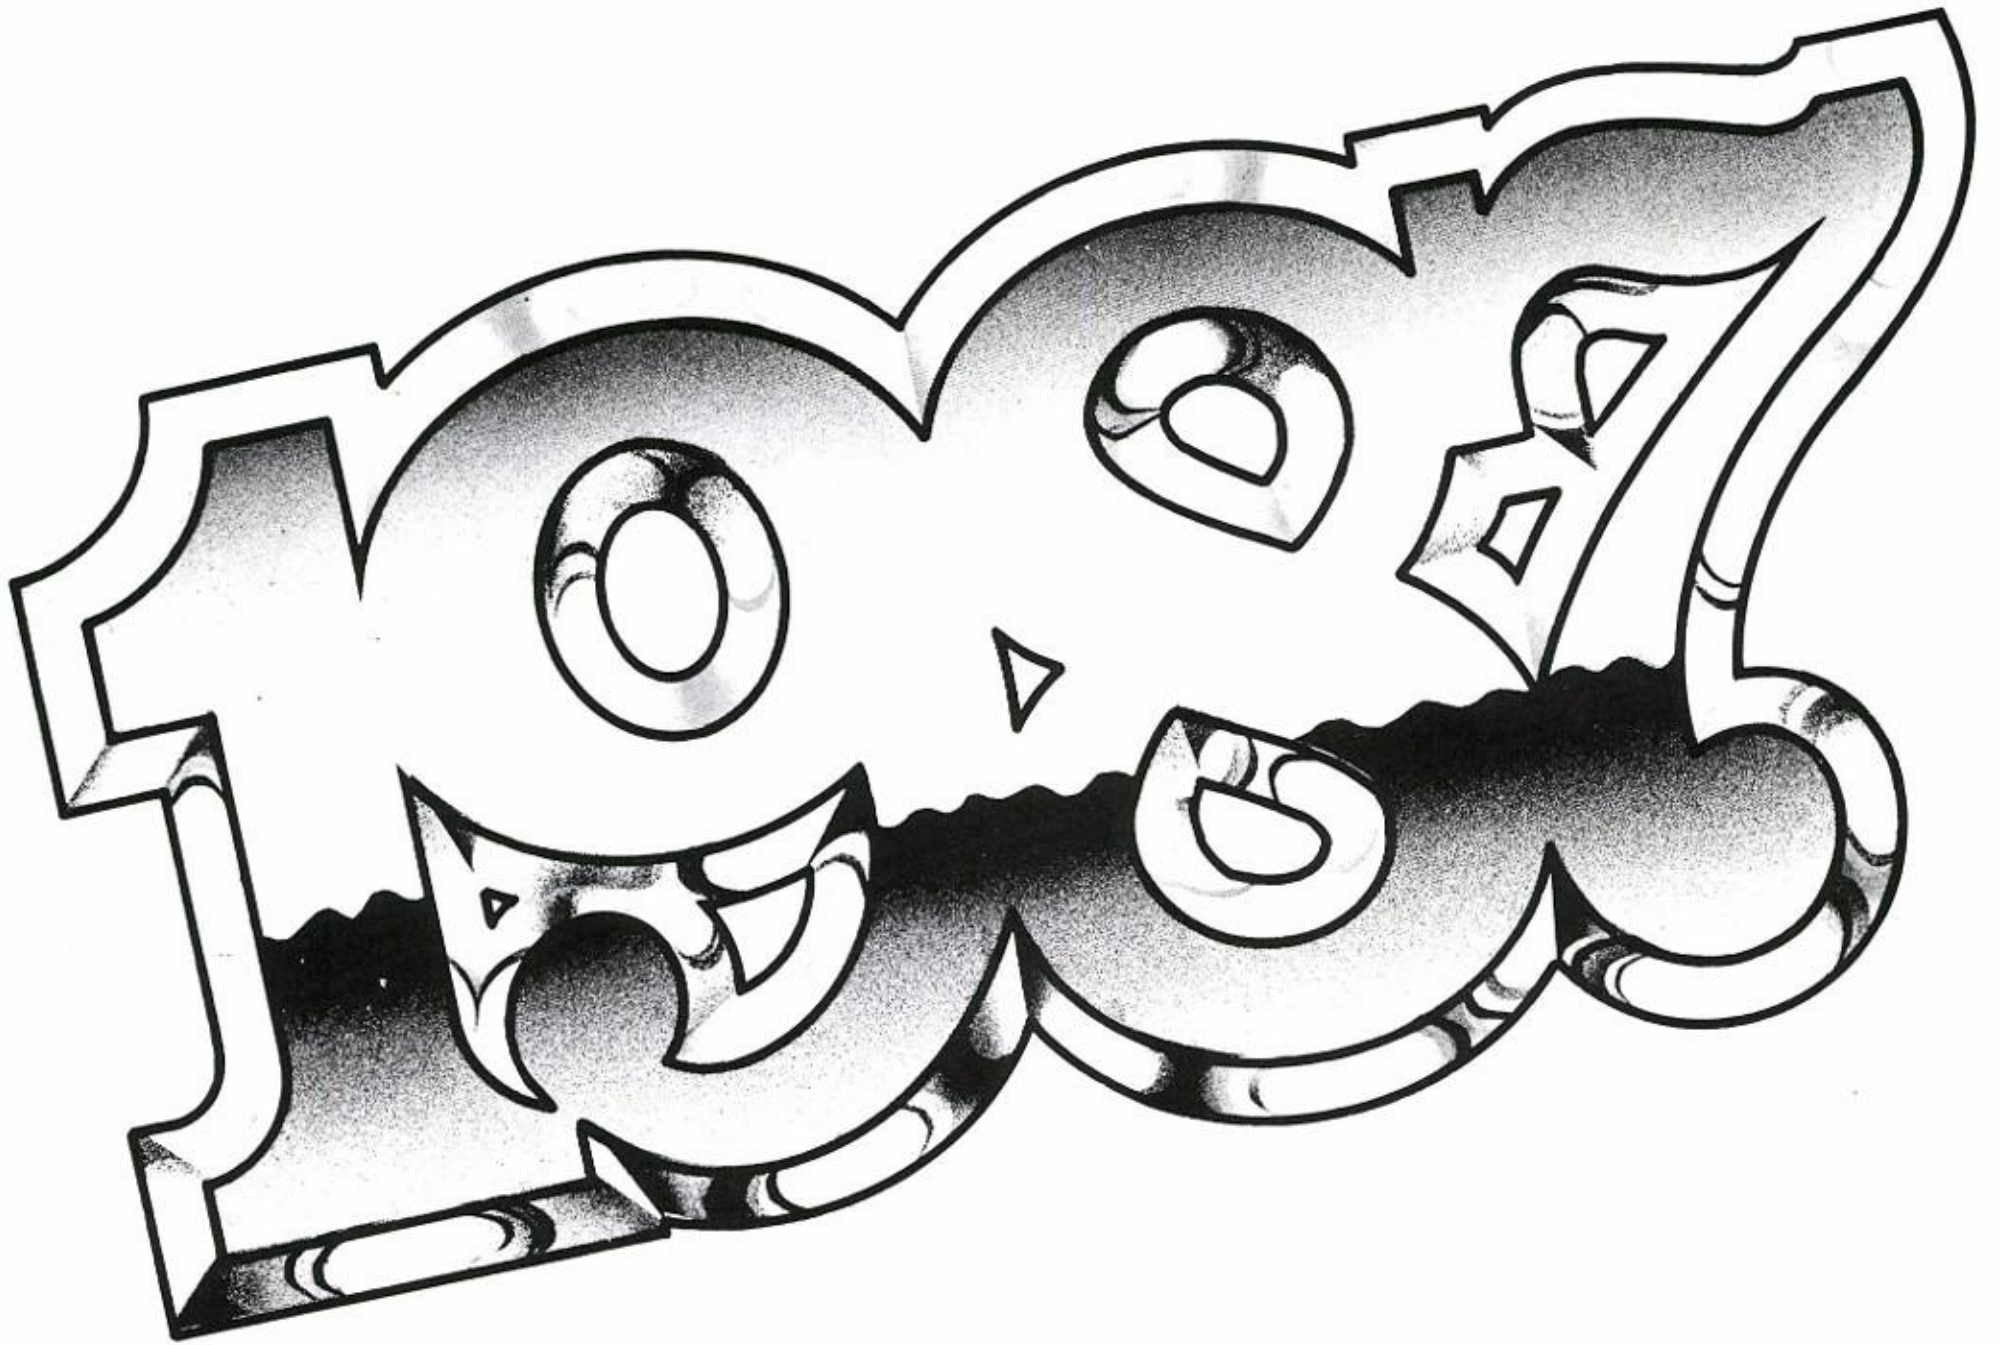

Smile, you're on candid camera

Administration

Running Panther High

Above left: Keith Hanke - Vice-President; Victor Sousek - Treasurer; Louis Kavan - member; Gerald Paes - member; Janet Piercy - President; Karen Houfek - Secretary. Above middle: Superintendent Andrew Hansen and Principal Arlene Kracl who is also the Librarian and teaches Jr. High English. Bottom left: Secretary and bookkeeper Jeanette Booze. Teachers Aid Cathy Snitily. Bus drivers: Leo Steinbach, Margie Steinbach, Alvin Booze. Middle right: Janitors Ron Cerny and Twila Wade. Twila also drives the Kindergarten bus. Bottom: Volunteer Aids Betty Paes and Vicki Swartz.

Running Panther High can be a strenuous job for these people. There are an unlimited amount of things the school board does. On is setting all the rules to meet with the State Regulations. Mr. Hansen also has many jobs to accomplish too such as setting up all the sports activities' dates, times, and referees. He also decides if school should be an hour late or no school at all in bad weather. Mrs. Kracl assists the superintendent and takes care of all absence slips, advance notices, excuse slips, the check out file, etc. Mrs. Booze is trying to convert all the bookwork and school handbooks to the computer, makes sure the weekly bulletin gets out on Fridays and answers all calls etc. Janitors have the "dirtiest" job of all. They clean up after the students and teachers. They do everything from vacuuming the mud out of the hall rug to unlocking or locking the last door. Getting the kids to school on time lies in the hands of the bus drivers as does taking them to all the away extracurricular activities. Teachers Aids do a lot of running around. They make sure they have the last copy run off or they show the elementary something new on a computer. All in all, this makes for a very busy day.

Leading the classes at P.H.S. is not all work with no play. The teachers participate in taking tickets at the exciting football, volleyball and basketball games. Some of the teachers were involved in spirit week. Miss Thomsen and Mrs. Sackett dressed up like plain and peanut M&M's on Couple's Day. The teachers exchange names to give presents on birthdays or holidays. Some can find posters or poems in surprising places. As you can see the teachers do get a little fun.

This year, many of the juniors and seniors were very busy deciding on careers, choosing colleges, filling out application and scholarship forms, and visiting colleges of their choices.

A poll was taken of the senior and junior classes on what they will be doing after graduation. Five want to find a job, twelve plan on going to college, nine want to go to a vocational or tech. school, two plan to work at home, and three plan to enroll in the service.

Above, at the right, Mary Lawver talks to a college representative.

Seniors Sneak to Lincoln and Omaha

On May 8, 1987, the Senior Class left Prague for their trip to Lincoln and Omaha at 7:00 a.m. along with their sponsors, Mr. Kevin Behne and his wife, and Mrs. Sackett. They were chauffeured by their bus driver, Mr. Booze. The class' first stop was breakfast at McDonald's in Lincoln. After breakfast, they toured the Lincoln Correctional Center.

After their tour, they headed for Omaha where they ate lunch at the Officer's Club (paid by Mr. Gerald Paes) and went to the SAC Air Base Museum. After an hour's visit to the Henry Doorly Zoo, these rowdy 18 individuals enjoyed themselves while playing putt-putt golf and raising dust on the go-karts at the Kart-Ranch. Their next stop was The Choice where they had quite a filling dinner. Their last stop was at Peony Park where they had fun on the rides for 2 hours, even though they had to wait for a parking place. The Seniors returned from their adventurous sneak trip at 11:00 p.m. to end their busy day.

Right: Waiting at the starting gate at the Kart-Ranch. 3rd row, left and bottom: A visit at the zoo. Middle: Dale and Mrs. Sackett at the Sac museum. LARGE & SMALL ANIMAL MEDICINE & SURGERY

Ninety one copies with eighty pages each of the 1987 Panther were published by Walsworth Publishing Company, Marceline, Missouri. Our Sales representative was Greg Adams.

The typed used was Bookman Italic. 10-point for body copy and 8 point for all captions. Headlines were 24 and 30 point. Ninety one books were ordered.

The cover was designed by Tracy Vanek. A special thanks to Jim Sousek who took the group photography. All other pictures were taken and developed by the annual staff members.

We would like to thank our many supporters that enabled us to print our book this year.
